# Grade-Level Instructional Materials Evaluation Tool

**Quality Review** 

The district should begin its textbook adoption process by screening an entire publisher series with the Instructional Materials Evaluation Toolkit (IMET), developed by Student Achievement Partners, to see which ones are worthy of deeper consideration. The IMET, built on the Publishers' Criteria for ELA/Literacy and Mathematics, has two major non-negotiable sections and seven alignment sections. The GIMET-QR mirrors that structure, providing key criteria for each individual grade. But rather than providing an exhaustive list of grade-level standards, GIMET-QR focuses on the most distinctive, key features of the standards by grade, allowing for more in-depth analysis of the quality of the content and the instructional design of the materials—the rigor called for in the Common Core State Standards (CCSS)-English Language Arts and Literacy in History/Social Studies, Science, and Technical Subjects.

This document contains Guiding Statements along with references to the CCSS. In response to each Guiding Statement, reviewers are asked to cite specific supporting evidence from the materials themselves, rather than relying on the table of contents or the topic headings. Evidence should include scaffolding to support ALL students including English language learners, students with identified disabilities, and struggling readers with the expectation that they learn and achieve the grade-level standards. This supporting evidence can then be used to rate whether and to what degree the criteria have been met. In some cases, reviewers will want to click on the reference links to obtain more detailed information from the Reading, Writing, Speaking and Listening, and Language strands of the CCSS, as well as the CCSS Appendices.

The review process culminates with a summary in which reviewers cite strengths and weaknesses of the product, thus providing explicit details for the overall assessment. The summary may also indicate any areas that district curriculum leaders may need to augment or supplement prior to making a recommendation for purchase.

# NON-NEGOTIABLE 1: TEXT COMPLEXITY

Even though the materials under review have already met the quantitative and qualitative measures of the IMET for grade-band analysis, the guiding statements provided in this section will examine text complexity in order to differentiate quality and richness among the texts your district is considering for adoption. To address the standards for grades nine and ten, the submitted materials need to create the conditions for rich and robust discussion and writing for ALL students (struggling readers, students with identified academic disabilities, English language learners, students who are performing at grade level, and advanced students).

## NON-NEGOTIABLE 2: QUESTIONS AND TASKS

At least 80% of all questions in the submission are high-quality text-dependent and text-specific questions. The overwhelming majority of these questions reference specific text and draw student attention to the text they are reading. This requirement is already met if the district used the IMET screen. Text-dependent questions that address the grades nine and ten standards will be described in greater depth in Alignment Criterion II.

### ALIGNMENT CRITERION I: RANGE AND QUALITY OF TEXTS

Materials must reflect a wide range of text types and genres, as required by the standards. In grades nine and ten, and across all other grade levels, there should be ample texts on topics that can support sustained study. Knowledge built at one grade level should be expanded in other grade levels. Topics should take into account individual student academic needs and interests in order to foster independent reading. It is also imperative that the included topics and themes are compelling enough to read multiple times and are aligned to district needs. Pay particular attention to the guidance provided in Appendix B of the Common Core State Standards.

GUIDING STATEMENTS	SPECIFIC EVIDENCE FROM THE TEXT/MATERIALS	EVIDENCE RATING
Literature and Informational Text  1a. The range of materials, both print and digital, allows teachers and students to explore content that coherently and systematically builds knowledge and grade-level vocabulary across subjects, themes, and topics. (See CCSS Appendix B for examples of grade-level knowledge demands.) Text sets also address a wide variety of student interests, and are likely to foster independent reading.		4) extensive 3) sufficient 2) some 1) weak Rating Pending
1b. Text sets include a diverse range of high-quality, culturally-responsive, and appropriate topics and themes. Texts from diverse cultures reflect the same high-quality features that are demanded of all texts.		4) extensive 3) sufficient 2) some 1) weak Rating Pending

### ALIGNMENT CRITERION II. QUESTIONS AND TASKS SUPPORT STUDENT LEARNING

Questions posed to students in the materials under review should support student learning in building reading comprehension, in finding and producing the textual evidence to support responses, and in developing grade-level academic language (IMET) and domain-specific words and phrases. Texts for grades nine and ten students must include text-dependent questions that require the use of higher order thinking skills. There should be a range of questions that require students to attend to the author's language as his/her vehicle for conveying meaning, as well as to support specific inferences with explicit details from the text. Most questions should require that the student refer to the text in several places in order to devise an answer—rather than asking only literal, "right there" types of questions—and should also require the student to compare texts, authors, and opinions (CCSS).

Literature and Informational Text  2a. Key Ideas and Details. Questions and tasks require students to explicitly attend to the text, including, but not limited to:  • Citing strong and thorough textual evidence to support analysis of what the text says explicitly as well as inferences drawn from the text  • Determining a theme or central idea and analyzing in detail its development over the course of the text  • Objectively summarizing text  • Analyzing how complex characters develop, interact with others, and advance the plot or develop the theme  • Analyzing how the author unfolds an analysis or series of ideas or events		4) extensive 3) sufficient 2) some 1) weak Rating Pending

2c. Integration of Knowledge and Ideas. Questions and tasks require students to explicitly attend to the text, including, but not limited to:  • Analyzing the representation of a subject or key scenes in two different artistic mediums  • Analyzing various accounts of a subject told in different mediums  • Analyzing how an author draws on and transforms source material (such as literary classics or religious works)  • Evaluating the argument and specific claims in a text, assessing valid versus fallacious reasoning  • Analyzing seminal U.S. documents of historical significance and how they address related themes and concepts   OVERALL RATING:  4) extensive evidence  3) sufficient evidence  2) some evidence  1) weak evidence  SUMMARY STATEMENT (Explain why the materials received this overall rating):	GUIDING STATEMENTS	SPECIFIC EVIDENCE FROM THE TEXT/MATERIALS	EVIDENCE RATING

# ALIGNMENT CRITERION III. WRITING TO SOURCES AND RESEARCH

The writing standards for each grade level highlight distinctive expectations about student writing. For details on grade-level writing expectations and writing exemplars for grades nine and ten, see the Common Core State Standards for English Language Arts and Literacy. The metrics below show key characteristics to look for in your review of materials.

GUIDING STATEMENTS	SPECIFIC EVIDENCE FROM THE TEXT/MATERIALS	EVIDENCE RATING
3a. Writing assignments are explicitly connected to what students are reading, and routinely include writing over shorter time frames (a single sitting or a day or two) and extended time frames (for research, reflection, and revision) for a range of discipline-specific tasks, purposes, and audiences.		4) extensive 3) sufficient 2) some 1) weak Rating Pending
<ul> <li>3b. Text-dependent questions generally create the foundation for students to address culminating writing tasks, including:</li> <li>Writing arguments to support claims in an analysis of substantive topics or text, using valid reasoning and relevant and sufficient evidence</li> <li>Writing informative/explanatory texts to examine a topic and convey complex ideas, concepts, and information clearly and accurately through effective selection, organization, and analysis of content</li> <li>Writing narratives to develop real or imagined experiences or events using effective technique, well-chosen details, and well-structured sequences of events</li> </ul>		4) extensive 3) sufficient 2) some 1) weak Rating Pending

### ALIGNMENT CRITERION IV: FOUNDATIONAL SKILLS

Even at the upper grades students must be able to recognize and pronounce words fluently in order to focus on the major goal of reading, which is comprehension. Extended foundational skills instruction continues at the secondary school level and includes word analysis skills, the study of linguistic frames, syntax, structures of text, levels of meaning, and academic vocabulary for students who are not reading at grade level. Foundational skills that address the grades nine and ten standards will be described in greater depth in Alignment Criterion VII—Scaffolds and Supports.

### ALIGNMENT CRITERION V: LANGUAGE

The Common Core State Standards for language focus on ensuring that students gain adequate mastery of a range of language skills and applications. Students are expected to meet each year's grade-specific standards and retain or further develop skills, knowledge, and vocabulary gained in preceding grades (CCSS).

### ALIGNMENT CRITERION VI: SPEAKING AND LISTENING

To be CCSS-aligned, speaking and listening must be integrated into lessons, items, and tasks. These must reflect a progression of communication skills required for college- and career-readiness, as outlined in the standards (see IMET). If grades nine and ten students are able to listen objectively to others, evaluate what they are learning, refine their opinions based on their reflections, and voice their own confusion/misunderstandings, their learning becomes deeper and more meaningful. They are exposed, at this level, to varied opinions, and must learn how to determine the validity of evidence provided by others as well as to provide evidence for their own choices and opinions (CCSS).

### ALIGNMENT CRITERION VII: SCAFFOLDING AND SUPPORTS

While scaffolds are not a part of the standards themselves, it is important to support teachers in meeting the needs of the range of students in their classrooms.¹ In order to meet the reading, speaking, and writing needs of **all** grades nine and ten students, the materials must include supports for students to comprehend at the grades nine through ten text complexity band and above this range with scaffolding. Supports and scaffolds should draw students back to the text and provide strategies for vocabulary acquisition. All scaffolding and support requires ongoing formal and informal assessments that provide multiple opportunities for students to demonstrate their proficiency and inform instruction.

As stated in the IMET, it is important to note that scaffolding is not just intended for struggling students, but also for students who are ready for above grade-level work. As text complexity increases, and tasks get increasingly challenging, the need for appropriate scaffolds for above grade-level access is equally important (CCSS).

Based on the substantial evidence collected, please rank all the grades nine and ten materials you reviewed in the order in which you would recommend them for adoption. The program or materials with your highest recommendation should be listed as number one below. Please provide any comments you deem pertinent. Include answers to the following questions based on the evidence cited in your materials review:

- What are the top three strengths of this text?
- What areas need improvement?
- What additional supports would be needed to implement the textbook series or digital materials?
