Making Strides Together Curriculum Award for Excellence in Urban Education

Happy Spring Everyone,

We are excited to announce that the Council of the Great City Schools and Curriculum Associates will partner to offer a new district team award. This \$4,000 award recognizes district teams who have been able to break their organizational silos to support a common goal to improve student achievement. The *Making Strides Together* Award will be presented on July 12th during our upcoming Annual Academic, Information Technology & Research Conference, July 11-14, 2017.

The *Making Strides Together* award allows us to recognize a district that is strategically involved in cross-functional teaming for planning, implementing, and monitoring progress on a regular basis. In order to be eligible for this award, district teams should organize documentation according to the award criteria listed below:

- Process used to determine the focus of the initiatives
- Development of a shared vision across stakeholders.
- District team's timeline in planning, implementing, progress monitoring and evaluating the initiative
- Adjustments made to improve the initiative based on feedback loops, satisfaction surveys, observations, or other data
- Communication across departments and at the school level
- Systematic use of human resources to support the initiative
- Evidence of impact on student achievement

We hope that you will submit an application with the required materials and be willing to share your success and challenges during one of our upcoming conferences. All information should be emailed by June 7th to Ricki Price-Baugh, rpricebaugh@cgcs.org.
