Council of the Great City Schools

Curriculum & Research Directors Meeting

Solutions to the student achievement issues we face today are too complex for any single department or division to address alone. Given the interrelated nature of the many systems that impact achievement, the Council of the Great City Schools invites teams of senior school district leaders in curriculum, research, school supervision, and innovation to come together at the annual Curriculum and Research Directors' Meeting. Participants will work collaboratively with their peers and invited speakers to learn about programs and processes that have been successful in Council member districts.

AGENDA

Monday, June 25, 2018 – (1:00pm – 5:00pm)

Literacy Pre-Conference

David Liben will introduce the 5 new high quality aligned programs that have come on the market since the standards. After a general introduction David will go into more detail on each program. Although these programs got all Green from Ed Reports they are very different from each other. The goal of this work is to get a detailed sense of each program so as to see which fits best with your district or school. David has worked with all of these programs and in the last year visited schools implementing them and thus has a strong sense of the strength and weakness of each as implementation began and continued.
