

INTRODUCTION

Guilford County Schools is the third-largest district in North Carolina, serving nearly 72,000 students across 126 schools in urban, suburban and rural areas. Because we are a larger district, we are able to offer opportunities that smaller districts, charter and private schools just can't. We have 45 magnet and choice schools with 54 programs, from Science, Technology, Engineering and Math (STEM) to performing or visual arts, advanced academics, Spanish immersion, Montessori, health sciences or aviation.

Our core values of diversity, empathy, equity, innovation and integrity are the driving forces behind all that we do to serve students, employees and our community. Join an award-winning district with students and staff who make a difference in the lives of others – every day! As a member of the District's leadership team, you will be fully engaged in helping us chart the course to success for every student in our district. We are currently searching for an Executive Director of Technology to join our team. Learn more about the position, application process and the District below!

EXECUTIVE DIRECTOR OF TECHNOLOGY

The Executive Director of Technology is responsible for district-wide strategic leadership in the area of technology. The Executive Director of Technology shall provide leadership to the district to improve student achievement by integrated technology throughout the district; develop and implement a visionary, district-wide technology plan, providing staff development opportunities to meet the goals of the plan, selection, purchase, and distribution of all equipment, courseware, application software, networking and communication installations, and the development of associated standards, security and backup/recovery. Areas of innovation and supervision include the enterprise based business applications, Software as a Service (SaaS), cloud based solutions, and the central mainframe computer facility, networking and technical support, communication installations and the wide area network, cyber and network security, and computer repair. In addition, this individual shall provide support for the operations systems of the district computers and networks, with the goal of providing a state of the art technology programming that promotes student learning and operational effectiveness. The person in this role will also oversee the purchase and maintenance of all IT hardware and software for the District. This position provides leadership that ensures information technology tools are efficiently and effectively deployed in support of the District's strategic goals and School Board values.
