Norms

- We are respectful and present
- We are solutions-oriented
- We assume positive intentions
- We engage
- We have fun
- We encourage “testing” of new ideas
Instructional Leadership Teams
Building Collective Efficacy for Literacy Instruction
How will we build on last year’s learning?

- **Spring 2019**
  - High Leverage Team Actions
  - Supporting Collective Efficacy
  - & Literacy Plan

- **Fall 2019**

- **Spring 2020**
  - Deeper Learning through Literacy
Equity Defined
Building Collective Efficacy for Literacy Instruction
Children and adults should receive what they each need to achieve their potential, and their race, culture and other characteristics of their identity should not prevent access to opportunities and resources.
What is the image trying to communicate?

**Equality**

**Equity**
Quick Chat

1. What does the image convey about equity and equality?

2. What might equity look like in the classroom? What are the differentiated “bikes” in your classroom?

3. How might literacy and equity be related?
Equity Taxonomy

- Engaged and Inspired Learners
- Instructional Excellence
- Opportunity to Learn
- Social-Emotional Engagement
- Physical Integration

Establishing Purpose: Instructional Excellence
Building Collective Efficacy for Literacy Instruction
Instructional Excellence - Deeper Learning

Frame of Reference

Teacher

Students

What instructional strategies support deep learning experiences?
Since the transition to the Common Core Standards, the LBUSD Understandings have been used to describe effective classroom practices and elements of pedagogy desired across all LBUSD classrooms. The Understandings Continuum is a tool that helps further define these Understandings. While it is not a tool that captures every classroom practice in an LBUSD teacher’s toolkit, it is an overarching vision of what we want classroom instruction to look like across our schools.

In their first iteration, the Understandings were presented in an evidence guide format, engaging teachers and leaders in the process of describing both continuing and new methodologies for helping students to meet the standards. As LBUSD teachers’ and leaders’ knowledge of high quality classroom practices and pedagogy increased, there was a need for the Understandings to evolve. The current Understandings reflect knowledge that is worth understanding: enduring, at the heart of instruction, cause reflection and promote engagement for all who interact with learning and teaching.

The 2018 Understandings Continuum is intended to provide teachers and leaders with a resource for planning high quality instruction, helping them to integrate key teacher practices as part of daily instruction, build collective efficacy, promote caring relationships with students and to inspire reflection throughout the instructional process. Specifically, it provides a starting point and outlines a progression of the implementation of these key practices. This Continuum was developed with teachers and leaders, for teachers and leaders.

Acknowledgements: Building upon prior versions, the 2018 LBUSD Understandings Continuum was developed under the direction and leadership of Dr. Jill Baker, Deputy Superintendent of Schools and Pamela Saki, Assistant Superintendent; Office of Curriculum, Instruction, and Professional Development. Development teams included staff from the Office of Curriculum, Instruction and Professional Development, the Deputy Superintendent’s Office, Office of the Assistant Superintendent - Elementary Schools, Middle & K-8 Schools, High Schools and Research who were instrumental in sustaining and improving the Continuum. We are grateful for the contributions of the Continuum Improvement Committee and the incorporation of the voices of our teachers, leaders and students.

---

Connection to the Understandings

What the Continuum is...

- a planning and reflection tool
- a tool for use across content areas
- a source for informing feedback and professional development
- a tool to engage students in thinking about themselves as learners (as age appropriate)

What the Continuum is not...

- a checklist
- an exhaustive list of effective instructional practice
- a tool for evaluating each Understanding in isolation
- an evaluation document
Literacy and Instructional Excellence

Building Collective Efficacy for Literacy Instruction
Frederick Douglass

“Once you learn to read, you are forever free.”

What is your interpretation of this? What does this mean to you?
How has literacy been used to promote equity?

Harriet Jacobs

Escaped slavery and wrote *Incidents in the Life of a Slave Girl*
How has literacy been used to promote equity?

What Does It Take to Teach for Deeper Learning and Equity?
Adapted from Riordan and Klein
EL Education and Montclair State University
Unboxed, Issue 17, Spring 2017

In classrooms across the United States, many of our most struggling learners experience instruction best described as what Martin Haberman (1991) calls, “the pedagogy of poverty,” where pedagogical practices tend more towards giving information and controlling behavior than creating spaces where students identify questions, make meaning, and solve problems in their communities and the world.

As a result of this “pedagogy of poverty,” learners that are most underserved—students of color, immigrants and English Language Learners, low-income students, and those receiving Special Education services—often spend class time filling out worksheets, which promotes high compliance but low engagement, inquiry, critical thinking, or creation of new ideas (Noguera, Darling-Hammond, & Friedlaender, 2015; Friedlaender et. al., 2007; Kohn, 2011). They are denied deeper learning opportunities, which we define as those that provide support in not only mastery of rich skills and content, but also the ability to think critically, collaborate, communicate effectively, self-direct learning, and believe in oneself. Instead, our students of color and others marginalized by income, language, or ability experience diminished opportunities anchored in illiteracy, lack of self-efficacy, low engagement, hopelessness, and criminalization (National Center on Education and the Economy; 2007; Children’s Defense Fund; 2007; Noguera, Darling-Hammond, & Friedlaender, 2015). At a time in our world when college and deeper learning skills are critical for participation in society and the global economy, far too many underserved students struggle within classrooms and schools that reinforce low-expectations and inequity.

What, then, can educators do to dismantle inequity and the “pedagogy of poverty” in classrooms and schools? How can leaders and teachers support deeper learning and equity for all learners? If, to paraphrase Maya Angelou, “when we know better, we must do better,” what do educators need to know in order to “do better?”
“Pedagogy of Plenty” - Examples

- Authentic Tasks
- Meaning-driven environment
- Quality resources
- Literacy-rich environment
- Connecting school with home, culture and community
- Problem-focused learning
- Cognitive and metacognitive problems in the context of purposeful activities

- Collaborative work on issues of deep concern to the students
- Varied social configuration
- Engagement in substantive dialogue, discussion, debate about the substance of the content
- Making meaning

What are some non-examples?

With your new understanding:

**Add** to and **highlight** practices that maximize the Pedagogy of Plenty, and promote literacy.
Literacy is a bridge from misery to hope. It is a tool for daily life in modern society. It is a bulwark against poverty, and a building block of development, an essential complement to investments in roads, dams, clinics and factories. Literacy is a platform for democratization, and a vehicle for the promotion of cultural and national identity. Especially for girls and women, it is an agent of family health and nutrition. For everyone, everywhere, literacy is, along with education in general, a basic human right.... Literacy is, finally, the road to human progress and the means through which every man, woman and child can realize his or her full potential.

Kofi Annan
Do the best you can until you know better.
Then when you know better, do better.

-Maya Angelou
Increasing Specialization of Literacy Instruction

Building Collective Efficacy for Literacy Instruction
Call to Action

“Literacy standards for grade 6 and above are predicated on teachers of ELA, history/social studies, science, and technical subjects using their content area expertise to help students meet the particular challenges of reading, writing, speaking, listening, and language in their respective fields.”

Common Core State Standards, June 2, 2010
How are you already supporting literacy in your classroom?

Your Discipline: ____________

Reading  Writing  Speaking  Listening  Language
Content Area Literacy and Disciplinary Literacy

Share with a colleague who teaches a different subject:

- Which instructional practices do you share? (content area literacy)
- Which instructional practices were only called out by a specific discipline? (disciplinary literacy)
Increasing Specialization of Literacy

**Content-Area Literacy**

Reading and writing for the acquisition of new content in a given discipline

**Disciplinary Literacy**

Developing expertise in the discipline in reading, writing, speaking and reasoning

**Basic Literacy**

Learning letters, sounding out words, sight words

Shanahan & Shanahan 2008
More on Content Area and Disciplinary Literacy
Teacher as a disciplinary insider

“It takes time to learn a new language or new culture.”

“Specialized literacy learning is like entering new cultures.”

What provoked your thinking?

“All people are always learning to read and reading to learn.”

“Literacy learning requires an apprenticeship.”
Content Area Literacy Strategies - Common to All (Signature Practices)

- Complex Text/Task (U2)
- Multiple reads of text
- Annotation
- Argumentation (CIEvR, CER, ACE) to demonstrate understanding
## Pedagogy of Plenty: **Content Area Literacy** Signature Practices

<table>
<thead>

With your new understanding

- Circle and add practices that promote **content area literacy**
- Star and add practices that promote **disciplinary literacy**
High-Leverage Team Actions

Building Collective Efficacy for Literacy Instruction
High-Leverage Team Actions

- Grounded in Professional Learning Community (PLC) research
- Deepen instructional excellence by facilitating common practice and expectations
Before the Unit
- Make sense of agreed-on essential standards
- Identify higher-level tasks
- Common assessments
- Common scoring rubrics
- Common homework

During the Unit
- Using higher-level tasks
- Using formative assessment
- Using lesson-design process

After the Unit
- Student goal setting based on data
- Teacher goal setting based on data
“Collective teacher efficacy refers to a staff's shared belief that through their collective action, they can positively influence student outcomes, particularly for those students who are disengaged and/or disadvantaged.”

Where in Team Practice 2 do you see opportunities for collective team learning?
High-Leverage Team Action 1

Make sense of the agreed-on essential standards (content and practices) *across content areas and within the disciplines.*

Let’s try!

*Added to clarify Content Area Literacy to Disciplinary Literacy*
High-Leverage Team Action 1 (Making Sense of Standard): Literacy Standard

Text Types and Purposes (CCSS)
Writing Anchor Standard 1: (HSS, Sci, Technical Subjects, ELA)

Write arguments to support claims in an analysis of substantive topics or texts, using valid reasoning and relevant and sufficient evidence.

Standards for Mathematical Practice Construct viable arguments and critique the reasoning of others.
Meaning Making (High-Leverage Team Action 1)

Text Types and Purposes (CCSS)
Writing Anchor Standard 1: (HSS, Sci, Technical Subjects, ELA)

Write arguments to support claims in an analysis of substantive topics or texts, using valid reasoning and relevant and sufficient evidence.

- Highlight practices (verbs), underline concepts (nouns), circle descriptors (adjectives)
- What concepts and practices need to be explicitly taught for ALL students to attain mastery of the standard?
As partners, discuss “In order for students to argue from evidence…”

1. What trans-disciplinary practices and concepts need to be explicitly taught across classrooms?

2. What discipline-specific practices and concepts need to be taught to build apprenticeship?

3. Consider the descriptors given in the anchor standard: What does success criteria for evaluating claims, evidence and reasoning look like across classrooms? In your discipline?
Team Reflection

1. Refer back to the Building Equity Taxonomy. Where do you see relationships between the content we just discussed and the Equity Taxonomy?

2. How does promoting common literacy practices across the content areas influence High-Leverage Team Actions in departments?

3. What does your ILT need to continue to learn together about?
Team Time

Building Collective Efficacy for Literacy Instruction
Team Time Set Up

What is your team inspired to do based on your learning?

What does your team need to learn more about?

What are the implications for your school’s action plan?

Document your thinking.
Rooms 1, 4 and B17 are available in addition to this room.

Be back by 3:00 ready to share out.
“Literacy is the gatekeeper to a better life. Those equipped with high levels of literacy form the cornerstone of an engaged and accomplished society. But we must teach and lead with a sense of urgency. Identify high-impact approaches that accelerate student literacy learning and amplify teacher collaboration, and then apply them with a degree of frequency, intensity, and duration such that they can deliver on their promise (Fisher, Frey, & Hattie, 2016). By doing so, we deliver on our promise for more equitable schools.”

“Literacy Equals Equity” from Corwin Connect Blog, APRIL 21, 2017 Authors: Douglas B. Fisher And Nancy Frey
